

# CronaTech Drives AB

For 11 years sales and support of KEB drive system products in Sweden have been done by Thomas Crona, employed directly by the KEB head office in Germany. For to better handle KEB drive products on the Swedish and Norwegian market a new company was founded, CronaTech Drives AB. It takes care of sales, stock, support and service on the local market in Sweden and Norway, but also support Finland and the Baltic states. CronaTech was founded 1<sup>st</sup> of September 2014.

**KEB Automation KG**, Barntrup-Germany, [www.keb.de](http://www.keb.de)  
Manufacture automation products and drive systems

**KEB Antriebstechnik GmbH**, Schneeberg-Germany, [www.keb-drive.de](http://www.keb-drive.de)  
Manufacture gears and servo motors

CronaTech's employees have many years of experience of drive systems from several different suppliers (frequency inverters, servo drives, dc-drives, motor, gears) in a wide range of applications like: paper machines, newspaper printing machines, woodworking, textile, pumps, air handling, elevators, electrical vehicles, hybrid ships etc.

We can also supply customers with turnkey projects (including components from other suppliers than KEB). We have close cooperation with electrical panel designers, cabinet builders and automation engineers.

The CronaTech office is located on the island Hönö, close to Sweden's second biggest town Göteborg, located in the South-West part of Sweden.
